- Strong Communication

PROJECTS

TYPING SPEED TEST

Description:

A web-based application built with PHP, MySQL, and JavaScript to evaluate typing speed and accuracy. Features include random sentence generation, WPM calculation, accuracy analysis, multiple difficulty levels, and language options, designed to enhance users' typing skills.

PET STORE

Description:

An online platform for managing pet products and services with features like user registration, product catalog, and admin dashboard. Designed for seamless navigation and enhanced user experience.
